## **Description :**

Room space is very limited now , people need this kind of space saving furniture to improve their daily life.

So , since year 2010 , we start to develop this kind of space saving furniture , after 3 times of upgrading, now we can be the most professional supplier in China for this wall bed murphy bed furniture .

The most advantage of our products is the mechanism system (pneumatic system , not the simple link),which makes the wall bed to be stable , durable & safe , light when pulls down and close bed(easy to handle).Besides , all the mechanism hide in the side panel box , which makes the wall bed safe and beautiful outlook

We have a standard size ( 1600X2000mm mattress ) , but also can do customized size according to your request , and also the color can be do according to your requirements ;

For the assembling ,it is very easy, we would provide the video and instructions for your employee to assemble ; We also have videos to show you, so please kindly send contact us ;

**Applications :**

This wall bed is very suitable for the home office , and also now there are many customers bought from us for the hotel project , as now this kind of wall bed is not only saving space, but also a different style of life ; Let's work together to creative better business and life .
